How to Make a Web Page

Web Site Tips

- You need a presence!
- There is a big range of options.
 - Free → Paid
 - Simple → Sophisticated
 - Basic → Powerful
- Think about your own capabilities, time and interest, as well as the needs of your customers/viewers.
- Remember mobile.
- Do you need a custom domain?
- Keep your site up-to-date!
- Don't forget to backup.

HTML Basics

W3Schools (tutorials and help) – www.w3schools.com/html

<code></code>	bold
<code><p></p></code>	paragraph
<code><h1></h1></code>	heading 1
<code> </code>	hyperlink
<code></code>	anchor
<code> </code>	hyperlink to anchor

Try Out Wordpress

- Go to wordpress.com and set up an account.
- Give your instructor your user name and she'll add you to the site hc85616.wordpress.com (Access through wordpress.com)
- Add a page and play!
